

LESSON 147 (0.5) Ground (1.5) Local Solo

Lesson Objective

The applicant will practice flight maneuvers with special emphasis on improving performance in any weak areas in preparation for the End-of-Course Practical Test. Additional confidence will be gained in solo operations.

Pre-Brief

- Create a Local Solo Plan of Action.
- Review Maneuvers and Procedures to be Performed in Flight.
- Outline the objectives and completion standards of the lesson.
- Establish the student responsibilities.
- Review homework assigned in the previous lesson.
- Student questions.

Instructor Guidance

- When briefing the student, emphasize that all maneuvers should be accomplished to Private Pilot ACS Standards in preparation for the EOC practical.
- The student must make a go/no-go decision depending on:
 - Personal Minimums.
 - FIT Minimums.
 - Aircraft.
 - Airspace.
- Review the student's planning with a focus on:
 - Weather, weight and balance, performance, flight planning, and fuel calculations.
 - NOTAMs, TFRs, FIFs, aircraft documents.
 - Discuss runways in use and pattern entry.
- Look over student documents.
 - Ensure student has all required documents and all are valid.
 - Verify student has all correct endorsements and if required, add endorsements as the flight requires.
 - Review the 90-day endorsement to ensure it has not expire.
 - Discuss FRAT/TEM/safety considerations for the flight.
- Create a plan of action for the student to follow to allow for an efficient flight.
 - Discuss all line items and EMPHASIZE that all line items must be completed in order to satisfy the lesson.
 - If any line items are not completed, the lesson will be incomplete.
 - Go/no-go decision is continuous and should be considered when airborne.
- Stress importance of making radio calls in practice area and non-towered airports.
 - Say "student pilot solo" when applicable.

Lesson Content**Checklist Procedures**

- Student pilot solo.

Preflight Inspection

- Student pilot solo.

Operation of the Communications and Navigation Units

- Student pilot solo.

Engine Starting

- Student pilot solo.

Radio Communication Procedures and ATC Phraseology

- Student pilot solo.

Visual Scanning and Collision Avoidance

- Student pilot solo.

Taxiing

- Student pilot solo.

Normal and Crosswind Takeoff

- Student pilot solo.

Short-Field Takeoff and Maximum Performance Climb

- Student pilot solo.

Soft-Field Takeoff and Climb

- Student pilot solo.

Steep Turns

- Student pilot solo.

Maneuvering During Slow Flight

- Student pilot solo.

Power-Off Stalls

- Student pilot solo.

Ground Reference Maneuvers

- Student pilot solo.

Traffic Patterns

- Student pilot solo.

Forward Slip to a Landing

- Student pilot solo.

Go-Arounds or Rejected Landings

- Student pilot solo.

Normal and Crosswind Landing

- Student pilot solo.

Short-Field Approach and Landing

- Student pilot solo.

Soft-Field Approach and Landing

- Student pilot solo.

Postflight Procedures

- Ensure that the student conducts a thorough postflight inspection.

Post Brief

- Student self-critique.
- Review ground track to ensure student did all line items.
- Student questions.
- Logbook Completion.
- Schedule and preview next lesson.
- Assign Homework:
 - Review missed items from lesson 146 and continuing studying for EOC.
 - Review where to find information for ground portion of check on the HUB.

Completion Standards

This lesson is complete when the applicant can:

1. The applicant accomplishes all required maneuvers including those areas assigned by the instructor.
