

Enhanced Private Pilot Certification Course**LESSON 139 (0.5 GROUND, 2.0 SOLO CROSS COUNTRY, and 3 LANDINGS)****Lesson Objective**

The student will use the previously learned cross-country skills on a solo cross-country flight. This flight will increase the student's proficiency and confidence. See supplemental handouts for recommended routes and airports. This flight must satisfy the requirements of 14 CFR Part 141 Appendix B 5(a) (1).

Briefing

- Review homework assigned in the previous lesson.
- Outline the objectives and completion standards of the lesson.
- Establish the student and instructor responsibilities.
- Student questions.

Lesson Content (Ground)

- **Instructor review of flight plan**
 - Review the entirety of the nav log and flight plan.
 - Make sure there are no errors, and everything is filled out correctly.
 - Review the weather briefing obtained by the student.
 - Endorse the student.
- **Go/no-go decision**
 - The student must make a go/no-go decision depending on:
 - Personal minimums.
 - FIT minimums.
 - Aircraft.
 - Airspace.
 - Review the students planning with a focus on:
 - Weather, weight and balance, performance, flight planning, and fuel calculations.
 - NOTAMs, TFRs, FIFs, aircraft documents, and personal documents.
 - Equipment requirements (e.g. flashlight, fuel card, drinking water, view-limiting devices, life jackets, fly away kit, survival kit, etc.)
 - FRAT/TEM/safety considerations for the flight.
 - While this is represented by one line item prior to departure, the go/ no-go decision is continuous and should be a consideration even once airborne.

Lesson Content (Solo Cross Country)**Cross-Country Flight Planning**

- Student pilot solo.

Weight and Balance

- Student pilot solo.

Enhanced Private Pilot Certification Course**Fuel requirements**

- Student pilot solo.

Charts and Publications

- Student pilot solo.

Performance and Limitations

- Student pilot solo.

Flight Plan (filed, opened & closed)

- Student pilot solo.

Navigation Systems and Radar Services

- Student pilot solo.

Pilotage

- Student pilot solo.

Dead Reckoning

- Student pilot solo.

Traffic Patterns

- Student pilot solo.

Ground Speed Calculations

- Student pilot solo.

Estimating ETA's

- Student pilot solo.

Normal Takeoffs

- Student pilot solo.

Normal Landings

- Student pilot solo.

Postflight Procedures

- Student pilot solo.

Post-Brief

- Student self-critique.
- Instructor critique.
- Questions from the student.
- Lesson grading.
- Logbook completion.
- Schedule the next lesson.
- Preview the next lesson → 140.
- Assign homework:
 - Plan a cross country and TOLD card problem to be used in lesson 140.
 - Review stage 1 and stage 2 material.

Completion Standards

The student shall adequately plan and safely conduct solo cross-country operations using the three methods of navigation. This flight must follow what is outlined in 14 CFR Part 141 Appendix B 5(a) (1).

This flight must be a minimum of 100NM with landings at a minimum of three points and one segment of the flight consisting of a straight-line distance of more than 50NM.

Upon completion of this flight the student must have a minimum of three solo takeoffs and landings to a full stop (with each involving a flight in the traffic pattern) at an airport with an operating control tower.
